Orchid Plants And Orchid Seed

CLARENCE M. KILIAN
210 YORKSHIRE DRIVE
BIRMINGHAM 9
ALABAMA

THANK YOU for your inquiry or past business. It is appreciated. If you are growing orchids now, you know what a thrill it is to pluck orchids from your own plants. If you have never tried growing this fascinating flower, you have a fine experience in store for you.

FOR THE INFORMATION of persons not familiar with orchid varieties, the following varieties are those most generally sold in florist shops: (C) Cattleya; (Lc) Laeliocattleya; (Bc) Brassocattleya; (Blc) Brassolaeliocattleya; (L) Laelia; (P) Phalaenopsis and Cypripedium. Letters in parentheses () are abbreviations used. Other varieties listed are usually grown as novelties.

BEGINNERS usually start with several blooming size plants, a few large seedlings (those which will bloom in a year or two), a few intermediate size seedlings to bloom within a couple of years or so and 8 or 10 of the small seedlings in 1½-inch pots which will bloom in approximately five years. Such an assortment gives one plants in all stages of growth, adding greatly to the interest of growing orchids.

SUGGESTIONS ABOUT ORDERING: It may be that the variety you order has been sold by the time your order is received. To avoid delay and correspondence, it is therefore desirable for you to indicate 1st, 2d and 3d choice when you order. I do not make substitutions unless given permission to do so by the purchaser. NOTE: If you are uncertain about what selection to make, state price plants you want, whether you want them all to be a single variety or diversified and I will make a selection of nice plants for you, all named. In case where any portion of an order cannot be filled I make refund promptly for that portion of the order which can't be filled.

INFORMATION ABOUT ORDERING: All prices are net, f.o.b. Birmingham, Ala. unless stated otherwise in the listing. Shipment is via Railway Express collect, unless purchaser specifies otherwise. If shipment is requested via air mail, postage charges will be C.O.D. Terms are cash with order. All plants are offered subject to prior sale. Unless indicated otherwise in the listing, plants will be shipped in pots, provided the purchaser does not request shipment out of pots. Shipment of your order will be made within 1 to 3 days after receipt except during cold weather when time of shipment will depend on weather reports for your section of the country.

WHAT PERSONS WHO HAVE BOUGHT FROM ME SAY -- I do not claim to offer "bargains". I do believe I give good value. Here is what some of the persons who have bought from me say: "The plants which you have sold me have been fine plants."--Nashville, Tenn. "All plants arrived in wonderful condition. Seed germinated well."--Stockton, Calif. "Plants I received from you are doing fine." -- Vancouver, B.C. "I am pleased with the seedlings I got from you."--Lakeland, Fla. "Received the plants today; never have I seen such service as you give."--St. Louis, Mo. "Almost forgot to tell you how pleased we were with the plants."--Battle Creek, Mich. "I am well pleased with the plants you sent me." --Flint, Mich. "The seed I purchased from you are the only ones out of some 20 packets that I have tried, that have germinated."--College Park, Ga. "The plants arrived in excellent condition; I am extremely well pleased."--Miami, Fla. "It is a pleasure to do business with a business man who takes the time you did on such minor things as my small order."--Bakersfield, Calif. "I have just seen the plants you sent

C. M. Kilian, 210 Yorkshire Drive, Birmingham 9, Ala.

a friend of mine. They are so nice that I borrowed your list from her and am ordering from it."--Duluth, Minn. "The plants I received from you were so nice that I want some more."--Canton, Ohio. "Your seed was wonderful. I had no difficulty germinating them."--Ontario, Canada. "The plants I got from you are doing extra well."--Stovall, Georgia. "The plant arrived today and looks fine."--Atlanta, Ga. "The plants you sent me were received in fine shape and are doing very nicely."--Washington, D.C. "I am very well pleased with the plants; they certainly are healthy ones."--Pittsburgh, Pa. "The plants arrived in excellent condition and I am very well pleased with them."--Renton, Wash. "About the fastest service I have received from any grower."--Hilo, Hawaii.

Blooming Age
LAELIA SPECIES

Laelia anceps -- long stems with star-shaped flowers with light pink petals and sepals and trumpet with yellow throat and bright fuschia lip, blooming late December and January. \$5 each in 5-inch pots; \$7.50 in 6-inch pots; \$10 in 5-inch pots.

Laelia acuminata -- similar to the above but with white flowers, colored lip. R12
Only 1 plant in 4-inch pot \$4

* * * * *

Did you specify 1st, 2nd & 3rd choice when ordering?

* * * * *

Blooming Age ORCHID NOVELTIES

The following plants are of varieties chiefly of novelty interest in diversified collections

Oncidium sphacelatum -- a "spray" orchid with numerous flowers about an inch across. Petals yellow, ruffled, with cinnamon markings. Nice for table decoration or hair ornament. Attractive foliage similar to pandanus. \$5 each in 5-inch pots. Larger \$7.50

Oncidium Leucochilium -- similar to the above - flowers yellowish-green blotched with brown. White lip. One plant \$4

Oncidium Luridum -- similar flowers except larger, up to 2-inch. One plant, large, \$7.50

Oncidium Flexuosum -- small-growing type with pretty little flowers R16 One plant \$2.50

Odontoglossum Citrosom --a "spray" orchid with white (sometimes flesh-colored) flowers; lip slightly darker. Grows best hanging up. One plant \$5

Dendrobium nobile -- flowers along the stem which bears the leaves. R20 \$5.00
Wallachiana and Cooksianum varieties same price (R18-20)

Brassia verrucosa (The "Spider Orchid") Only one plant \$4

Epidendrum Brassoala, Stanfordianum and Virens -- A few plants at \$3 each

Dendrobium Phalaenopsis -- A beauty -- spray of dark purple flowers in the fall \$12.00

* * * * *

"STRAY" CATTLEYA SPECIES & HYBRIDS

In handling a volume of plants, a few labels get lost. Such plants are classed as "stray" plants. If you are not buying for hybridizing but for cut flowers these are a good buy. Blooming size hybrids \$10 each; species \$4 each. Same plants with names would cost 1/3 to 1/2 more. Only a few of these.

C. M. Kilian, 210 Yorkshire Drive, Birmingham 9, Ala.

LARGE CATTLEYA & ALLIED HYBRID SEEDLINGS

The parents of the plants listed here are of select stock. The plants are in 4-inch pots and most should bloom within 12 to 18 months. Please be sure to indicate 2d and 3d choice. Flowers of all of these are colored except where marked "alba" which means that petals and sepals should be white, and lip only colored.

SMALL CATTLEYA & ALLIED HYBRID SEEDLINGS

- *C. Ella Mae Sutton x C. Bobby Jewell -- pure white -- in 2 $\frac{1}{2}$ -inch pots \$3 each
(These should bloom within 4 to 5 years)

The following, in 1 $\frac{1}{2}$ -inch pots, are colored varieties and should bloom within 5 to 6 years. They are priced at 75¢ each, or 4 for \$2.50. Minimum order for seedlings \$5, please, unless ordered with other plants.

- *C. Margaret Purcell x Lc. Hadrian
C. Dupreana x C. Mossiae
C. Ottawa x C. Dionysius

- *C. Enid x Bc. Imperialis
C. Santa Monica x C. Tityus
C. Reseda x C. Cassadaga

Community Pots: Community pots of each of the above except those marked * may be had at \$5. Each community pot contains 12 or more seedlings large enough for planting in individual 1 $\frac{1}{2}$ -inch pots.

PHALAENOPSIS SEEDLINGS

An exceptionally fine hybrid -- Phalaenopsis Doris x Venusta Venusta -- seedlings in tubes, ready for transplanting to community pots -- \$20 per tube, f.o.b. Roslyn, N.Y. Note: Purchase not recommended to persons without previous experience in transplanting from culture solution to community pots.

HYBRID ORCHID SEED

The following seed, from parents of proven productivity, is now available or in pods which should ripen shortly. It is offered at a low price to enable beginners to try their hands at the gripping experience of growing fine orchids from seed. Special equipment not needed. Full instructions supplied with each packet. Price of \$5 per portion sufficient to plant five 500-cc flasks (or pint fruit jars) includes the necessary planting and nutrient medium. All seed is microscopically inspected for germinating qualities, and is of the same quality I plant myself. Portion is large enough so you can try again if your first attempt is a failure.

- C. Sir Walter Scott x C. Trianae
(C. Priscilla alba x C. Enid)
x C. Schroederae
C. Mossiae x C. Tityus
C. Santa Monica x Lc. Nella
C. Tityus x C. Reseda

- C. Reseda x C. Santa Monica
C. Santa Monica x C. Cassadaga
Lc. Norseman x (C. Princess Royal x
C. Marjorie)
Lc. Nella x C. Talladega

Only a few portions of some of the above are available, so please indicate 2d and 3d choice when you order.

* * * * *

PHAIUS (Grandifolius)

A terrestrial species of orchid with foliage of attractive appearance. Of easy culture, requiring about the same treatment as begonias. Do well in compost of 1/3 soil and 2/3 leaf mold or peat moss. Require more water than epiphytic orchids such as Cattleyas, but must have good drainage. Numerous flowers about 3 to 4 inches across. Flowers tan above, creamy white under neath. Lip is deep lavender with white border. Throat yellow.

Shipped out of pots only -- blooming age plants \$5 to \$10 each. (Only a few available, so please indicate 2d and 3d choice).

C. M. Kilian, 210 Yorkshire Drive, Birmingham 9, Ala.

SUPPLEMENTARY LISTINGSOrchid Plants for Sale at Points Other Than Birmingham

The plants on the following listings are from the collections of persons in whom I have confidence, and from whose collections I have previously sold plants with satisfaction to the purchasers.

* * * * *

Supplementary Listing No. 1

The following plants are from one of the largest commercial collections in the East. Except where otherwise noted, they are of blooming size. These plants are f.o.b. Roslyn, N.Y. and will be expressed OUT OF POTS ONLY. Shipment as weather permits.

	<u>Prices</u>			
	4-5 in. pots	6-in. pots	7-in. pots	8-in. pots

Cypripedium

Cypripedium is a terrestrial orchid, requiring more shade and more moisture than Cattleyas and grown in a compost of leaf mold and peat moss in which good drainage is

Your order, large or small, will be appreciated and will be given personal attention.

7

provided. Another good compost is $\frac{2}{3}$ osmundum fibre and $\frac{1}{3}$ live Sphagnum moss. Some varieties of Cypripedium (also known as the "lady slipper" orchid) do not do well in the warmer sections of the South, Southwest and California, so are not recommended for those sections. However, if you live there and have a "green thumb", you might want to try one or two just for the challenge they present. The 2 varieties offered

Cyp. Faircanum and Cyp. Sanderæ are from 4-inch pots
and are priced at \$10 ea., f.o.b. Roslyn, N.Y.

Supplementary Listing No. 2

The following plants are offered f.o.b. Baltimore, Md. and unless specified otherwise, will be shipped IN pots, Railway Express collect. Unless indicated otherwise, plants are flowering size in 5-inch pots. Please specify 2d and 3d choice on your order.
